

## **REPORT ON DONATION OF LENSES TO SCHOOL OF DISPENSING OPTICS, OYOKO – ASHANTI**

### **Introduction**

Corporate social responsibility plays key role in running a charitable Organization like ours. It is against this backdrop that Quantum Medical Centre/ Quantum Total Wellness Foundation has been embarking on health intervention activities include: free medical screening and treatment, Donating medical accessories to eye training Schools and many others.

### **Demand and Package of Donation**

Oyoko School of dispensing optics, Ashanti Region is one of the Training Schools that has a challenged of getting lenses for their practical learnings. According to them, this hinders a smooth teaching and learning. Owing to this, Quantum Total Wellness Foundation has decided to intervene by donating varied and assorted lenses for purposes of training and academics.

On the 14<sup>th</sup> of September, 2021, a team comprises of Assistant Lecturers led by Solomon Osei Baafi include: Emmanuel Owusu Manu, Hamza Ayariga Mumuni, Gloria Annor Serwaa and Eric Asumadu arrived at Quantum Premises at about 3.25pm in the evening. The team was received by Eric Oduro, the Company Secretary and Vida Akekodaga, the Director of Programs at a

Brief

ceremony.

### **Assorted Lenses**

The category of the lenses constituted progressive lenses (plastic) and single vision (glasses) types. The total number of lenses for the donation constituted 20% progressives and 80% single vision. In all about 15000 lenses were

donated to the School.

### Other Photographs

Quantum team and Oyoko team took photographs to commemorate the occasion and as an evidence for future referencing and for records purposes.

### Closing Remarks

The team leader, Mr. Osei Baafi, took the opportunity to thank Quantum and the management for such a rare gesture in the history of the School.
